CREATIVE, CONVERSATIONAL, FUN SENTIMENTAL & TOTALLY UNIQUE

Unique in
the UK
maybe the world

Your wedding day is over and you sit back, relax, put your feet up and relax in your home. A home that's there at the beginning of your journey as a married couple.

You reminisce of your day, a day full of celebration, the coming together of ideas, meticulous planning, joy and of course love. But alas a day that goes so fast.

You gaze up at your painting, hanging proudly on your wall. A painting that is made with a loving mark from all of your guests. Loved ones from every generation - making their mark forever more. A painting that was designed bespoke to your taste, your inspirations and supported by the guiding hand of a professional artist.

This is our why.

Why; we think a 'Your Guest Canvas' can be such a treasured special touch to your wedding day.

Why; we love to design each painting bespoke to you as a couple.

Why; we love encouraging and seeing the inner artist coming out in all of your guests.

Why; were proud of getting photos of your painting displayed in your home.

What is a Your Guest Canvas and how does it work?

Your Guest Canvas is built around the idea that all friends and family of the couple help the artist create a fine art painted canvas on their wedding day. But this is more than just a guest book, or a finger print tree. It's considered, bespoke, managed and artistically executed to leave the couple with a piece of artwork they will love and treasure on their wall.

1. THE DESIGN

The painting inspiration is completely up to the couple. It could be inspired by a special place, an animal, or simply a style the couple like. The colour palette is then chosen to work in the couple's home or reflect their style. At a personal consultation I help you decide on your design and work to both taped designs or freehand or a mix of the 2.

2. THE DAY

I invite all friends and family young and old to work together to make something truly unique for their loved ones. I can offer support and tips if your guests wish and am always on hand to manage the painting. Ultimately I manage the paint and painting on the day to achieve a desired outcome.

3. THE FINISHING TOUCHES

Once the event is over I take back the painting to my studio to edit and enhance. *excludes Artisan

4. THE DELIVERY

Soon you'll have your painting in your home ready to be admired and be a reminder of your day.

"Our guests loved it! Everyone commented on what a great idea it was- no one had seen it at a wedding before! It was so nice to have something different at our wedding." Amy & Mark

Does anyone else offer this event?

In all honesty as far as I'm aware - No. And I've looked, asked industry experts and always been told it is totally original. Definitely within the UK - possibly the world.

How long are you at the wedding for?

I recommend a 2-4 hour slot - Time wise I would recommend the drinks reception or very early evening. Sometimes I will split these hours over the drinks reception and early evening. If you'd like us there for more hours than included in the package I offer an additional hourly rate.

What tools do you provide to paint with?

I use professional acrylic paints, a range of brushes and palette knives

Do you provide tuition?

As and when its needed, even if I do I give guidance I like to encourage the guests to self discover. I want it too be joyful , not a lesson in right or wrong. If we are trying to achieve a desired effect with your painting I will guide in that direction.

Has any venue ever said no?

No, some venues want to see public liability which is available upon request. I also reassure the venues if we inside I use floor coverings, provide aprons and never leave the painting or paints unattended.

Can children paint?

Yes - children are welcome to join is as long as they are supervised by an adult at the canvas. Il provide aprons if you wish but 'm not there to look after them directly.

Having something so special on your wall, made on your wedding day. By all those there is something that still gives me goosebumps. My nan was an artist and I'm lucky enough to have her artwork on my walls. Now she isn't with us anymore, being able to see her marks everyday is really special. I love that this event will also allow that feeling to pass on to so many more people.
